Indira Borràs González

Junior Developer

Summary

I'm a junior software developer with an insatiable curiosity and hunger for learning, a positive attitude, and a keen interest in Front-end. I enjoy improving things and collaborating with a team to bring out the best from everyone and deliver outstanding solutions with a twist.
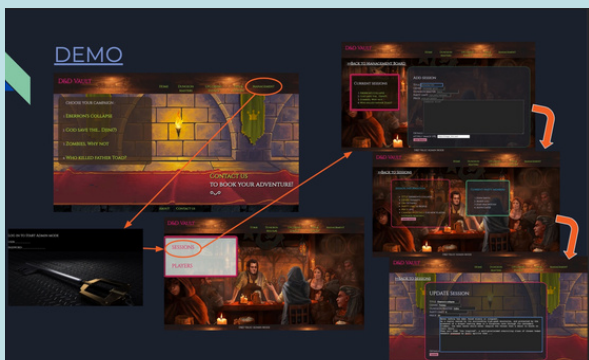

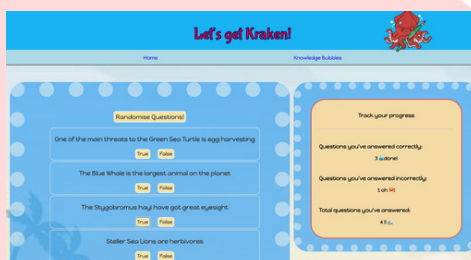

I'm quite a perfectionist and detail-oriented. A hard worker. And I like to feel proud of my craft.

Projects

Fullstack learning app with learning modules and quizz page for kids about marine sustainability. Own API.
Js, React, NodeJS, MongoDB

Organising and Planning

Project Management

Client relationships

Problem solving

Communication Skills

Programming Knowledge

Work Experience

Senior IT Recruiter April 2022 - April 2023
Smart Hire IT, recruiting tech talent for the Nordics

During my 2y in the company, I acquired more knowledge and experience in **client handling**, **leadership**, **delivering reports**, **mentorship**, **team collaboration, marketing**, and freedom to provide **creative solutions**. Here is a showcase:

Client handling:
- Leading the account management of several clients in the tech industry across different countries in EU.
- Helping clients & candidates meet their expectations.
- Building strong and lasting relationships with clients that not only drove in new business but also got me invited to their EU offices and a sponsored attendance to a major tech conference in Stockholm.

Collaboration and leadership:
- Worked well individually and in a team.
- Acquired strong communication & organizational skills
- Provided training and mentorship to the new crew. My goal is always to grow in my role to then be able to help others, inspire, and to make a difference.

Going the extra mile/ duties beyond my role:
- Key role in the whole rebranding & new website.
- Improved operations by setting better standards for communication and the creation of guides.
- Delivered a Social Media Audit - never been done before.
- Video edited adverts & company posts for marketing.
- **I was to be promoted to "Head of the creative department"** but I'm transitioning to a more fulfilling path.

IT Recruiter April 2021 to April 2022
Smart Hire IT, recruitment for the Nordics
Adaptability and resourcefulness are essential to work with such tight deadlines in a high-paced environment.

Technical Recruiter Feb 2020 - Jan 2021
Staffinders, Edinburgh based recruitment agency

Junior IT Recruiter Jun 2019 - Nov 2019
NetTalent, Edinburgh based recruitment agency

Social Media Engagement Coordinator Feb 2018 -Jun 2019
Sykes, working for 3 different clients

Customer Services Agent Nov 2017 - Feb 2018
Sykes

Research Associate. Sept 2016 - Aug 2017
Hospital Universitari de Bellvitge
Publication (2017): **Cognitive Deficits in Executive Functions and Decision-Making Impairments Cluster Gambling Disorder Sub-types**

Achievements

2022:

During a continued successful collaboration, I got invited by one of my clients to attend the **codeBEAM conference in Stockholm** (sponsored by them) - it became a life-changing experience and it gave me the confidence and the final push to take the real leap towards programming.

2022:

I left the company as a full-time employee setting a new record in performance.

2021 - 2022:
Drove real **innovation** to our company by continuous actions and by playing a key role during our **re-branding.**

Education
